

NEW RBG-712

ROTARY BLADE GRINDER

EASE OF OPERATION

UNLIMITED SHARPENING DEPTH

WHEEL NEVER REQUIRES DRESSING

RBG740 Grit Collector
Optional

REDUCES GRINDING TIME

STANDARD AND REVERSE BLADES

ELIMINATES GRINDING WHEEL DUST

Sharpening lawnmower blades is no longer complicated with the new RBG 712 Blade Grinder. In fact, it has never been easier. Now you can restore your blades to a factory flat edge using our preset blade guide to maintain the proper angle for the best cut and edge life.

By replacing traditional grinding wheels the RBG 712 will reduce your work time while eliminating grinding wheel dust and wheel dressing. Our unique design will allow you to grind any length of cutting edge required for both standard (right-hand) and reverse (left-hand) rotation flat blades. And with the addition of our optional grit collector you can maintain a cleaner and safer shop while sharpening your blades.
